

PROJECT TITLE:

Street Lighting Improvements

WHY THIS PROJECT?

This project will fund the maintenance of decorative streetlights in Santa Barbara's Downtown area, and fund the replacement of legacy 6.6 amp (high voltage) streetlight circuits through the City.

PROJECT BENEFITS:

This project will result in well-maintained decorative streetlights in Santa Barbara's downtown, preserving the streetlights from corrosion. Conversion of the 6.6 amp circuits will result in safer electrical circuits, and allow for the replacement of the existing high pressure sodium light fixtures with energy efficient LED's.

QUICK FACTS

Location: Citywide

Design Schedule: Ongoing, annual

Construction Schedule: Ongoing, annual

Total Project Costs: Fiscal Year 2020 - \$371,000

Funding Source: Measure C
